

# THANK YOU FOR YOUR PURCHASE

MutinyShop.com is a small business owned and operated in the USA. Our highest concern is customer service. If you were unhappy in any way with your order please contact us immediately via email at [help@mutinyshop.com](mailto:help@mutinyshop.com)

## PRODUCT INFORMATION

**Patch Care:** Patches should be hand washed in cold water and air dried. Machine washing patches is not recommended, but permitted. Photatches may scratch if rubbed with a sharp object or a lot of pressure. This is rare, just note that while our patches are more durable than any other printing option, they are not indestructable.

**Shirt Care:** Shirts decorated with vinyl can be machine washed in cold water and machine dried. Vinyl will never crack or peel. It may begin to wrinkle after several washes but this can be fixed with an ironing.

**Decal Care:** To apply your decal: Make sure the area is clean. Peel off the transfer paper (the top clear layer). Make sure all parts of the decal remain attached to the transfer paper. Center the decal over the application site. Apply one side of the decal and smooth the rest over to avoid bubbles.

Decals become more durable over time and will eventually leave a residue when removed. This residue can easily be cleaned away with a degreaser such as "goo gone". Decals are highly fade and scratch resistant due to the way they are manufactured (cut, not printed).
